**KYSCI 2023 COMMEMORATIVE
CUSTOM KNIFE!
A WORK OF ART!**

**CAPING KNIFE
BY SABLE CUSTOM KNIVES**
www.sableusa.com

**BLADE LASER ETCHED WITH
KYSCI 2023 ON BOTH SIDES**

SABLE CUSTOM KNIVES are custom made from scratch using time perfected technics & the best possible materials to create perfection. SABLE CUSTOM KNIVES has been making knives since the early 1980's & are particularly passionate about hunting & bowie knives.

SABLE CUSTOM KNIVES uses various types of Stainless Steel & Carbon Steel for knife blades like the 440C Carbon Steel used to create this hunting knife created specifically for the *Kentuckiana Chapter of SCI*. Grade 440C stainless steel is a high carbon martensitic stainless steel. It has high strength, moderate corrosion resistance, and good hardness and wear resistance. Grade 440C is capable of attaining, after heat treatment, the highest strength, hardness and wear resistance of all the stainless alloys. The very high chromium content provides better corrosion resistance than most tool steels and enables it to be semi-stainless.

This **KYSCI 2023 SABLE CUSTOM KNIFE** supports strikingly beautiful handles made from hand selected ram's horn and buffalo horn with a blue spacer that is not only handsome, but is a good choice for knife handle material because it's easy to work with, beautiful to look at, and makes the blade almost 'pop' out due to the difference in contrast.

This highly polished **KYSCI 2023** knife comes with a custom made genuine top-quality cow hide leather sheath which fits the knife perfectly. **SABLE CUSTOM KNIVES** come with limited lifetime warranty, if anything goes wrong, they will fix it for you or replace it. (Deliberate damage to the knife is not covered in the warranty.).

SABLE CUSTOM KNIVES welcomes orders for custom knives. Your knife can be made to suit your taste. You can give them your own design or make changes & modifications to their knife designs with your desired materials.
