The "Shipwreck" was Hadden Hailer Custom Call's first specialty call made available to their customers. This unique hunting "Shipwreck" duck call is perfect for a collection or can be taken into the field for a hunt. This truly is a collector's piece!

Hadden Hailers Custom Calls has generously donated this beautiful duck call which has been specifically hand crafted for the *Kentuckiana Chapter of Safari Club International*. This handsome, unique call is made from a piece of hand selected Bastogne Walnut with a blackwood insert. This beautiful call was hand rubbed, hand oiled and marked by its creator, Andrew Hadden, founder of Hadden Hailers!

Hadden Hailers Custom Calls was originally started with a lathe, a dream, and a few pieces of wood. Over the course of 8 years, there were many late nights and new creations. During those years, new acquaintances became close family friends and many dreams became reality. With the help of their customers, friends and family, *Hadden Hailers* has been able to build their business into one that spans multiple continents. The company has become famous for taking their customers ideas and building calls to fit individual needs. Andrew uses premium, stabilized, and natural woods to create works of art that help stack the deck of duck hunting and goose hunting in their clients' favor.

Whether a customer wants a special, one-of-a-kind call made for everyday use in the blind or one to celebrate that special occasion, *Hadden Hailers* can build the perfect call. They have designed and built calls to celebrate birthdays, engagements, weddings, and birth announcements as well as calls to remember loved ones, both human and animal. Contact Andrew Hadden to discuss your ideas and check out their website to see some more of their custom calls.
